

GREENCARE BLOWOUT

Powerful Acid free Vacuum Toilet system descaler

DESCRIPTION

Greencare BlowOut is part of Marine Care's green line introduced into the maritime industry to invest in greener and cleaner seas. Greencare BlowOut does not contain any acid and is non caustic. Based on revolutionary technology Greencare BlowOut has dissolving properties which outperform phosphoric acid cleaners. Greencare BlowOut is the most effective green line cleaner and descaler ever developed. It dissolves calcium, lime, scale, milk stone, beer stone, uric stone and other deposits which, until now, required the use of corrosive and dangerous acids. This extreme cleaning power comes with a triple zero HMIS score. This makes Greencare Blow-Out safe on your skin, safe for your equipment, safe on paint, non corrosive on any kind of metal and safe to store anywhere.

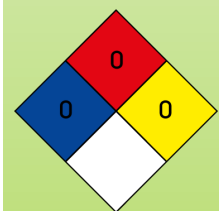

ADVANTAGE

Greencare BlowOut contains no acid, is: non-corrosive, not regulated, readily biodegradable per OECD 301D. As Greencare BlowOut liquid neutralizes instantly with fresh water, time and material costs for authentic acid neutralization are eliminated. Any line cleaning that once required the use of dangerous acids can now be done in a safe and green manner. GreenCare BlowOut does not effect the enzymes in the sewage system.

APPLICATION

GreenCare BlowOut is mainly used to remove any scaling in the lines of Vacuum toilet systems.

- Acid free
- Non toxic
- Non corrosive
- 100% bio-degradable
- Not regulated for storage & transport
- Approved by:
 - > **U.S. EPA**
 - > Marinfloc
 - > OCNS
 - > HOCNF

DIRECTIONS FOR USE

General maintenance cleaning with Greencare BlowOut can be easily done by applying a dosage of 50 ml of the product to each toilet. Depending on the use of each toilet this can be done on a daily basis at extensive use and on a weekly basis at moderate use.

DILUTIONS

Light to moderate cleaning	1 - 10 % solution in water
Moderate to heavy deposits	10 - 50 % solution in water
Heavy to severe deposits	50 % solution in water to pure

PROPERTIES

Article number	14802 / 16802
pH	< 1
Density	1,06 g/cm ³
Flashpoint	None
Physical state	Liquid

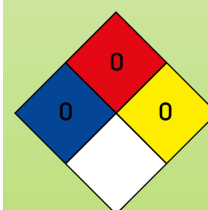

APPROVALS

- U.S. EPA approved
- Marinfloc approved OWS Compatible
- OCNS registered, 25429, for Offshore applications
- HOCNF approved, CEFAS/NEMS registered, 11102

For detailed information on safety and health, please refer to the Material Safety Data Sheet MSDS and/or product label.
