

CARECLEAN AIR FRESH

Waterbased liquid airfreshener for neutralizing unpleasant smells and odors

DESCRIPTION

Careclean Air Fresh is a liquid air freshener, based on perfumed oils in water. It is used for eliminating unpleasant smells and odors from tanks previously carrying heavily smelling cargoes (for example fish oils or turpentines).

ADVANTAGE

Careclean Air Fresh is safe to use on stainless steel, mild steel, epoxy and zinc coated tanks.

APPLICATIONS

Careclean Air Fresh is often used for removing unpleasant smells and odors, if a smell of the previous cargo is perceptible after tank cleaning . It is recommended that at first the cause of the smell is determined before applying the product. If the smell is caused by insufficient cleaning, the tank should be re-cleaned. Insufficiently cleaned tanks may cause rejection by the surveyor.

DIRECTIONS FOR USE

Careclean Air Fresh is used either by means of spraying, circulating or soaking with rags. When Careclean Air Fresh is sprayed it should be done in a 1:10 dilution with water. Normally, 1 to 2 liters of product is sufficient for one 400 m³ tank. Let the product evaporate for a reasonable period of time. When dosing Careclean Air Fresh by means of circulation add 0,1 - 1 % of product to the last rinsing water after tank cleaning. It is also possible to soak cotton rags in Careclean Air Fresh and leave them in the tank for several hours.

NOTE: Before entering the tank after treatment, it should be thoroughly ventilated.

- Eco-friendly
- Biodegradable
- Suitable on all coatings
- Pleasant odor
- Non Flammable
- Approved by:
 - > IMO
 - > Coating manufacturers

DOSAGE

Spraying	1 - 10	% solution in freshwater
Circulation	0,1 - 1	% in freshwater
Soaking	100	%

PROPERTIES

Article number	14609
pH	6,5 - 8
Density	1,01 g/cm ³
Flashpoint	None
Physical state	Liquid

APPROVALS

- IMO approved in accordance with MEPC 590 Guidelines
- Major coating manufacturers

For detailed information on safety and health, please refer to the Material Safety Data Sheet MSDS and/or product label.
