

CARECLEAN CARBON

Cleaning product for use in immersion baths to remove carbonized oils

- Non corrosive on most metals
- Highly concentrated
- Approved by: > Marinfloc

DESCRIPTION

Careclean Carbon is a liquid blend of solvents and alkali. The product is used for cleaning of carbonized lube-oil and fuels on pistons, injectors, cylinderheads, fuel and lube-oil filters, fuelheaters, etc.

ADVANTAGE

Careclean Carbon is a highly concentrated product that removes carbonized oil and tarlike deposits. Careclean Carbon will remove old paint layers and lacquers.

APPLICATIONS / DIRECTIONS FOR USE:

Immersion baths

Put the components in a steel bath filled with undiluted Careclean Carbon and let them soak, depending on the degree of contamination for 2 to 10 hours . Take out the components and flush clean with a powerful waterjet.

DOSAGE

Immersion bath undiluted

PROPERTIES

Article number	14108
pH	11
Density	1,12 g/cm ³
Flashpoint	81 °C
Physical state	Liquid
