

# CARETECH FOAM CLEANING KIT

**For cleaning heights of over 6 meters in holds, tanks, superstructures and spraying barrier coat in holds**

- Robust but light weight design
- Adjustable from 240 to 730 cm
- High capacity air driven pump with outlet for 2 lances

The Caretech Foam Cleaning Kit has been designed for application of alkaline and acidic cleaning chemicals and barrier coatings in holds, tanks and on superstructures.

The Caretech Foam Cleaning Kit is a complete ready to use set and is supplied with a double action membrane pump that can simultaneously feed 2 lances, chemical resistant hoses complete with quick connections, a sturdy adjustable spray lance with a high-tech foam nozzle and a narrow angle flat spray nozzle, a support belt and guide wire kit for easy handling.

Ergonomic design:

Support Belt and neopreen rubber grip for optimal handling, even when wet

## CARETECH FOAM CLEANING KIT

### Technical specifications

#### DUBBLE ACTION AIRDRIVEN MEMBRANE PUMP

- Capacity 50 liters/minute
- Air pressure 2 - 7 bar
- Wetted parts Polypropylene
- Membranes Hytel, PTFE plated
- Seats Polypropylene
- Seals PTFE
- Air connection 3/8" BSPF
- Suction/discharge 1/2" BSPF

#### SPRAYLANCE

- Material Aluminium (anodized)
- Length Adjustable 2,4 - 7,3 meters
- Wetted parts Brass, Stainless Steel, PVC
- Pressure (max.) 20 bar

#### HOSES, COMPLETE WITH QUICK CONNECTORS

- Suction, 10 meters reinforced PVC, 40 bar, 16 mm ID
- Discharge, 50 meters reinforced PVC, 40 bar, 16 mm ID
- Air, 20 meters reinforced PVC, 40 bar, 8 mm ID

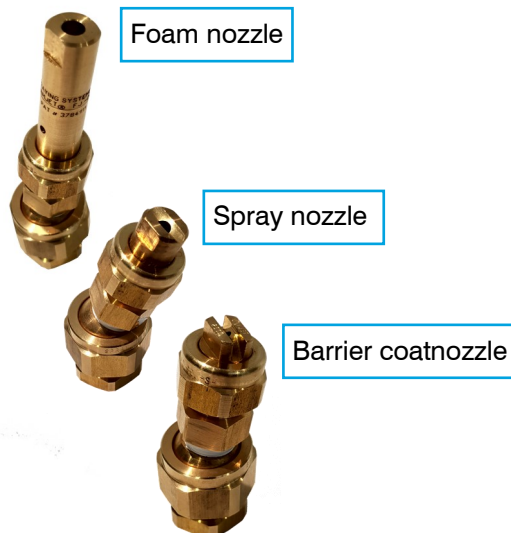

#### NOZZLES MOUNTED ON ADJUSTABLE BALL CONNECTOR

- Foamjet nozzle Brass, 0°, 10 lit/min at 4 bar
- Flatspray nozzle Brass, 25°, 14 lit/min at 4 bar

#### GUIDEWIRE KIT

- Steel wire / Support line 35 meter each
- Pulley system steel / polypropylene

- Robust but light weight design
- Adjustable from 240 to 730 cm
- High capacity air driven pump with outlet for 2 lances
